The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 17, 53, 54, 55 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. We are not able to discern where support lies for exclusion of piperonyl butoxide; neither can we find any basis for a carrier being anything but water.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Applicant's arguments filed on 7/21/04 have been fully considered but they are not persuasive. Although exclusion of synergists were discussed, the application is directed at use of synergists, thus, the exclusionary basis would be by positive recitation – consisting of – if there can be no other basis for support of excluding known synergists. Although the absence of synergists overcomes the rejections of record, a new search would be necessitated if support were provided for exclusion.
